

# ***IRIS ATTENDANCE SYSTEM***

## ***COGNITIVE WALKTHROUGH***

**NAME : TALHA SAGHIR**

**MUBASHIR AHMED**

In IRIS ATTENDANCE SYSTEM first we have welcome page on which we write "WELCOME TO IRIS BASED ATTENDANCE SYSTEM "

On next page we have three options

1. REGISTRATION
2. MARK ATTENDANCE
3. HELP

### **REGISTRATION :**

one who want to register himself can use registration in which we can conduct his/her information like Name , Address , Phone number , Date of birth , Sex, Email and scan his/her eye for record .

### **MARK ATTENDANCE:**

After registration ,one can easily mark his/her attendance easily without any problem . user can use registration option once for registration and then they can use mark attendance option to mark his attendance whenever the person present in front of the IRIS ATTENDANCE SYSTEM .

## **HELP :**

On selecting help user can know better how to use this attendance system accurately without any problem and how to detect and register his eye without any problem .
